

(our) HOA Town Hall Meeting, Nov 12, 2015

Our HOA Town Hall Meeting tonight, Nov 12, was an overwhelming success, beyond what I expected. The very large conference room that normally seats 82 was filled to an overflow crowd with folks sitting on tables and standing.

A very sincere thanks to all that attended and for putting up with the crowded conditions . The attendees were diverse with home owners, a few HOA lawyers, property managers, and several Realtors. Questions, calls for HOA reform, comments from the crowd and personal stories dominated the event. Yes, the presentation got a little off track but the emphasis is on home owner concerns and sharing their personal experiences so that got a priority.

A big thanks to the city of Aurora for providing us the conference room. Also, a thank you to Senator Nancy Todd and Rep. Su Ryden (who sent her representative)for attending and showing interest in HOA issues. These two representatives have been HOA advocates in the past and continue to show their support.

We will be posting the entire Power Point presentation and all home buyer's brochures, HOA maintenance guides, and other material referenced at this meeting on our web site by Nov 16.
A few pictures of the event will be posted.

Thanks again to all members in helping get the word out about this meeting and a very special thanks to all that were able to attend.
